HISTORY

Kochere Rego washing station was established in 2010 and located in one of the top-quality coffees growing region, in Kochere district of Gedeo Zone of the Southern Nations and Nationalities region. About 700-800 farmers supply coffee cherries to this washing station traveling from 3-4 km radius from the washing station. The station provides different incentives like premium price, credit service and trainings to farmers so that to receive best quality cherries.
